

QUEER SCHOOLS.
There is in St. Petersburg an institution where young men are trained for service as police. The course of instruction provided is supplemental to the examination given by municipal authorities, says the New York Herald. Special study is given by pupils to the tools of various kinds employed by professional thieves. There is a class devoted solely to the study of forgery, with particular reference to the falsifying of signatures and visas on passports, a most important consideration in the performance of the duties of a Russian policeman. A school for croppers is conducted at Monte Carlo. During the summer months, in the clubhouse of the "Cix aux Pigeons" and the Salle de l'Esplanade, in the Casino building, aspirants for the office of cropper learn the operation of gambling tables. Each pupil must from time to time, while others are impersonating players and making their respective wagers, conduct the game and learn how instantly to calculate and to pay out the winning stakes. Generally, it is said, there are about 60 or 70 pupils in this school, and a six months' course is deemed sufficient to turn out finished croppers. Brussels has a school for the instruction of grave-diggers. This gruesome institution was founded by the directors of the Evere cemetery. All candidates for appointment as sections throughout Belgium must pass an examination at this school before they can obtain employment as grave-diggers.

What is a Jay Walker? We all know him and recognize him as a pest, but Kansas City was first in giving him a name and separate classification. The Jay Walker is the person who walks or litters in crowded streets, totally indifferent to the rights and convenience of those he comes in contact with there. In crossing from one sidewalk to another he ignores the cross-walks and meanders among wagons, traction cars and automobiles with a recklessness that puts the drivers in danger of heart failure. On a crowded sidewalk he keeps to the left instead of to the right, roughly shouldering his way through the oncoming stream of humanity. He stops to talk with acquaintances on busy corners, putting himself where he will most interfere with the progress of the people passing by. On the narrow boardwalk in front of an excavation for a new building he leisurely surveys the operations going on behind the fence, compelling all who wish to pass to step off upon the dirty pavement.

There has started in Baltimore a systematic plan to deal with street mendicants in a practical and sensible way, says the Baltimore American. As a result of a conference a special mendicancy officer has been appointed to make a careful examination of each case and suggest the wisest method of dealing with it. He will have plenty to do, although street beggars are not as numerous as they were a few years ago. Still there are an abundance of them, surely enough to keep an officer busy. Some of these mendicants have grown old in the business and are familiar figures on busy shopping streets. Few, if any, of them, are worthy of charity. They stay in the business because they find it the easiest way to get food and drink, especially drink.

One portion of the British Isles is not likely to take much interest in the bill for reforming the calendar which is to be introduced into parliament, says the London Globe. The act enforcing the Gregorian calendar was passed 161 years ago, but it is still ignored in Shetland. Almost all through the group of islands the old style of reckoning time is still followed. What we call January 13 is New Year's day among the Shetlanders and celebrated by them with all manner of observances, including the solemn drinking of the national toast—"Health to man and death to the gray fish."

King Alfonso of Spain stopped a runaway horse and saved the life of one of his generals. Send Alfonso a hero medal at once. Let us encourage the kings whenever there is a chance to do so. SESSION IS ENDED

CONGRESS ADJOURNS SINE DIE
—PENROSE RESOLUTION IS PASSED BY SENATE.

\$600,000 STATE CLAIMS HIT

Charges of Bribery and Corruption Made Against Senators Chilton and Watson of West Virginia—President Leaves for Beverly.

Washington, Aug. 28.—The second session of the Sixty-second congress came to an end at 4.30 o'clock Monday afternoon. One hour before that time the senate moved to the house and struck out of the general deficiency bill the state claims of Oregon, Texas, Virginia and Maryland, aggregating \$600,000.

The president came to the capital to sign the measure which provided for an expenditure of \$9,000,000. Senator La Follette brought up the Penrose campaign investigation resolution early in the session and with the threat of a long filibuster succeeded in forcing it through the senate without a roll call.

Two minutes before adjournment the house administered a final blow to the senate by refusing to consider a resolution of the upper chamber permitting it to pay its own expenses a month's extra salary.

Charges of bribery and corruption against Senators Chilton and Watson of West Virginia, which were signed by the governor of West Virginia, were referred to the committee on privileges and elections after a lengthy discussion.

In the house the adjournment ceremony was uneventful. Barely a handful of Democrats and Republicans applauded the final address of Speaker Clark, congratulating them for their aid during the session and expressing the hope that they would all return in December.

Prior to the speaker's address Chancellor Fitzgerald of the appropriations committee and former Speaker Cannon, the ranking Republican member, indulged in a verbal duel, both agreed that the total appropriations for the year was \$1,019,000,000, as against \$1,026,000,000 of the last Republican congress. Cannon maintained that the Republicans had been as economical as the Democrats had been in the last session.

President Taft shortly after the adjournment started for Beverly, Mass., where he is to spend his vacation.

OFFERS TO APPEAR

ROOSEVELT DEMANDS THAT HE BE PERMITTED TO TESTIFY.

John D. Archibald Says, "I Am Not a Liar and Will Not Endure It Lightly."

Oyster Bay, N. Y., Aug. 27.—To refute the testimony of John D. Archibald concerning his knowledge of an alleged contribution of \$100,000 by the Standard Oil company to the Republican campaign fund of 1904, Col. Theodore Roosevelt announced Sunday that he wanted to go before the senate committee investigating campaign contributions.

"I have wired Senator Clark, chairman of the committee," Colonel Roosevelt said, "that I should like to appear before the committee at once."

"It is a most unheard-of thing," he said in commenting on Mr. Archibald's testimony and his denunciation for Europe, "that Mr. Archibald should demand that I should testify without testifying about the \$250,000 he gave Senator Penrose. It is a most peculiar thing that the committee should allow him to depart with such testifying. There are no dead men concerning this transaction, and he could be sure of what he was testifying to in that."

New York, Aug. 27.—"I am not a liar, I am not accustomed to being so accused, and will not endure it lightly."

Just before he sailed for Europe Saturday this statement was read by John D. Archibald to interviewers. This he said was all he has to say at present in answer to Col. Theodore Roosevelt's sweeping denials of the testimony given by Mr. Archibald to the senate committee investigating campaign contributions.

LOEB AIDS ROOSEVELT

FORMER SECRETARY SAYS HARRIMAN ASKED T. R.'S HELP.

Asserts Cortelyou Told Him Standard Oil Did Not Give to Campaign Fund.

New York, Aug. 28.—William Loeb, Jr., collector of the port of New York by appointment of President Taft, came out boldly here Monday in a vigorous defense of Col. Roosevelt against the attacks being made upon the ex-president in the double barreled controversy raging over his contributions to the Roosevelt campaign fund of 1904 by the Standard Oil company and by E. H. Harriman.

He says it was he, and not President Roosevelt, whose secretary he then was, to whom George B. Cortelyou, as chairman of the Republican national committee, gave positive assurance that the Standard Oil company had made no contribution to the campaign. Mr. Loeb also makes the further statement that instead of Roosevelt asking Harriman for assistance, the latter at the famous White House interview urged the president to cause National Chairman Cortelyou forthwith to give financial help to the New York state ticket in order to save the state ticket.

Sixty-two votes were cast for the resolution. Stone explained that he believed the "square" thing to do would be to "go it alone."

Postmaster General Declares That State Forbidding Distribution on Sabbath Is Not Aimed at Business Houses and Hotels.

Washington, Aug. 29.—Postmaster General Hitchcock issued this explanatory statement Tuesday in an effort to check the flood of protests against the new regulations against the delivery of all except special delivery mail on Sundays, even to holders of post office boxes.

"I have received up to midnight on Saturday for lock boxes will be distributed to the boxes and will be available to box holders on Sunday as usual."

"There is at present no street delivery of mail by letter carriers on Sunday and therefore the law makes no change in this regard. In short, the only mail that will be affected under a reasonable construction of the new law is that received at the post office on Sunday and delivered on that day for distribution to lock boxes."

As the purpose of the law, which was clearly enacted in the interest of the employees, is to reduce as far as practicable the amount of Sunday labor, the work of distributing Sunday mail to lock boxes will be limited to certain classes of mail that cannot be held until Monday morning without serious inconveniences to the addressees. This mail will include that of newspapers and for hotel guests. The latter is peculiarly transient in character and should not be delayed. This mail, like the special delivery mail, will be sorted out at the offices of dispatch on the railway mail trains in order to simplify the work of distributing it in the post offices on Sundays. Washington, Sept. 2.—In the city of Lawrence, Mass., where the highly

protected woolen mills hold forth

where boys and girls work for \$2, \$3

and \$4 a week, and fathers and mothers

work long hours for \$5, \$6 and \$7 a

week for full time, 47 out of every 100

deaths are those of children under 5

years of age. And of these 47 children,

35 are under 1 year of age. The doc-

tors declare the high mortality of these

children is because their mothers

carry such long hours, under insanitary

conditions, in the woolen mills.

But mark the percentage of child

deaths in Lawrence particularly:

Forty-seven out of every 100 persons

that die in Lawrence are children

under 5 years of age. Now compare

these with Seattle, Wash. There out of

every 100 persons who die, but 19 are

children under 5 years of age.

The average for the whole country is

27 children under 5 years of age out of

every 100 persons who die, and for the

whole country 19 out of every 100

deaths are of children under 5 years

of age, instead of 47 in Lawrence.

woolen trust also operates, 50 out of

Republicans for Wilson.

Joseph E. Davies of Wisconsin, secretary of the democratic national committee, has announced that Republican spokesmen of California and John J. Blaine of Wisconsin, supporters of Senator La Follette in his campaign for the republican presidential nomination, had agreed to lend an organization to work for Woodrow Wilson in the presidential campaign. The organization will be known as the Wilson National Pro-Republican League, and will make an active fight in support of Wilson among republicans. Allied with Mr. Sprackels and Mr. Blaine in this work will be Charles R. Crane of Chicago, also formerly active in the republican party.

That Primary Pamphlet.

One of the greatest jokes that has been perpetrated upon a long suffering public was the primary pamphlet, printed by the state at the expense of the taxpayers. Statistics show that it cost \$8,374.12 to get out the pamphlet and that the receipts from those who had written up in the thing were \$3,350.00, leaving a balance of \$5,024.12 for the taxpayers to do up.

Road Exhibit at State Fair.

The Wisconsin Highway Commission, as has been its custom, will make an exhibit at the Wisconsin State Fair, September 10th to the 14th inclusive.

The exhibit will include a model showing the possibilities of road relocation, charts and diagrams showing the amount of work done in 1912 and to be done in 1913, and what is probably the most complete pictorial exhibit of road construction ever attempted in any state.

Experienced engineers will be present to give advice on any phase of road or bridge construction.

This exhibit will be placed on the Germania Building, and on the same space with an extensive display of road machinery.

Altogether, the exhibition will be one in keeping with the tremendous advancement in Wisconsin along the lines of permanent road construction.

Farmers and the Income Tax.

In a communication to the Baraboo Daily News, N. H. Smith goes at the state income tax law from a new angle.

In Wisconsin, he says there are 177,137 farms; 161,022 are occupied by owners, 24,664 by tenants, and 1,416 by managers. If a report is made from each of all these farms, allowing \$2 each for time spent in going to a notary to swear to the statement, which every person is required to make, the total amount to be collected, would cost \$3,542.64.

"These amounts do not include any taxes—just getting ready."

The expense of collection is a remarkable demonstration of the ridiculousness of this inequitable and unpopular law. It is expensive to the man who pays taxes under it, because a large proportion of what he pays is absorbed in compensating the officials engaged in administering the law; and, as Mr. Smith shows, it is expensive to thousands of those immune because their incomes are under the amount which is subject to assessment, who are put to inconvenience and outlay by reason of the red tape methods which are a feature of the law.

MEEHAN

Rev. Raymond Meehan, his farrowed son, who was here Sunday night, was here to see his country and to see his country.

Dr. Whitehead of Plover, came down one day last week to see his country and to see his country.

Several left here Tuesday morning for Plover to attend the annual Sunday school convention.

While thrashing at Joe Rosenthal's place, the day moving the cylinder of the Glendinning's engine burst, to pieces, breaking other parts and the engine was a total loss.

Those terrible wind and stormy nights, did much damage here. Corn which is very tender at this season was blown down in places much of it being broken off and entirely destroyed.

The Sunday School picnic held Saturday was a success. A large crowd of children especially were present and enjoyed the picnic very much.

Sam Walters was called to Monroe on Tuesday by the sudden illness of his mother who is not expected to live.

During the storm on Thursday night lightning struck the house of Herman Ecker and John Worland. No serious damage was done.

WILSON'S SPEECH HIGHLY PRAISED

Press and Public Men Join in Chorus of Approval.

DISCREET, ABLE, SAFE, SANE.

"Will Impress the Country Favorably." Declares William Jennings Bryan. "Admirable Pronouncement" Says Champ Clark. "Appeals Strongly to Every Legitimate Business Interest," Declares John W. Kern.

An Admirable Speech. Hon. William J. Bryan. "Governor Wilson's speech of acceptance is admirable. It is original in its treatment of the issues of the campaign. I am sure the address will impress the country favorably."

Appeals Strongly to Every Legitimate Business Interest. John W. Kern, Senator from Indiana. "Governor Wilson's speech of acceptance is a masterpiece, setting forth with great clearness his conception of the work to be accomplished by the Democratic party under his leadership. It is in complete harmony with the progressive and business interests of the country, and it appeals strongly to every legitimate business interest."

Will Take High Rank. Champ Clark, Speaker of the House of Representatives. "Considered from a literary standpoint, Governor Wilson's speech of acceptance will take high rank in the political output of the year. It will make pleasant reading and therefore will prove a fetching and convincing document. He discusses the campaign of the day philosophically, clearly and forcibly. His courteous tone will ally opposition and win him friends. It is an admirable pronouncement."

Battle Hymn of Democracy. "The Senator Gore of Oklahoma. "The closing sentence of his speech will be the battle hymn of Democracy in the coming campaign. I think God will take courage. It is at once a poem of praise and is a summons of patriotic duty."

Discreet, Able, Safe and Sane. John E. Lamb, ex-representative from Indiana. "Speech is discreet, able, safe and sane. Governor Wilson believes in the efficacy of the people's vote and in the right of the people to elect their representatives. His suggestions of reform in methods of government and reduction of tariff schedules will meet with approval of legitimate business and the laboring masses as well."

Points the Way for Justice. Hoke Smith, Senator from Georgia. "I am delighted with Governor Wilson's speech of acceptance. It is a superb statement of the people's right to elect their representatives and points the way for justice to all through real progress by law under the constitution. With his election assured, it should give confidence to honest business and new courage to those who need a square deal."

Lays His Soul Bare. John P. Fitzgerald, Mayor of Boston. "Governor Wilson's acceptance is characteristic of the man. He lays his soul bare to the people and asks them to elect him to the office of president. In his present position without undue clamor or injury to legitimate interests. He lays emphasis on constructive thinking, and I believe this optimism one of the nation's great leaders. Governor Wilson is a man of peace and justice toward all men."

Progressive, but Not Wild. Thomas Mott Osborne, Auburn, N. Y. "Governor Wilson's speech fits the occasion and the man—progressive, but not wild; sane, strong and unambiguously Democratic. It makes an inspiring opening of the campaign, indicating clearly and nobly the path of progress. The people's party must work; not one of mere partisan make believe, but of honesty and justice toward all men."

Prophetic of Success. Governor William H. Mann of Virginia. "I think it was an admirable speech. It was wise, conservative, comprehensive, prophetic and of Democratic supremacy for years to come."

Rings True in Every Sentence. Governor Frederick W. Plaford of Maine. "It is a splendid presentation of the issues for the American people. It rings true in every sentence and in every word. It represents the spirit of the Democracy of today. It is the address of a statesman."

An Admirable Presentation. Governor Eugene Foss, Massachusetts. "It was an admirable presentation of the issues of the campaign. It was wise, conservative, comprehensive, prophetic and of Democratic supremacy for years to come."

preparing to show them in search of a
musical instrument for the very latest in
this line. There are fifteen different
styles in the line and it should be
possible for nearly anyone to find
something that will please them.

The hosts of Summertime resign,

that of a barrel organ, and one could

the pair apart.

There is no other time of year
quite like the season coming.
When the first gold maple leaves ap-
pear.

And the pleasant gets to drumming.
If every month were like this,
And Autumn's breezes fanned it,
The heart of man would bust with
bliss.

And people couldn't stand it.
A little bliss, so we have found,
is almost always better. It keeps one
foot upon the ground, and sometimes
the other foot, too, and the tendency to
sorrow, man's place is on the planet, and
it isn't very long before he's sorry he
began it.

At any rate, the mother bird will call
her chicks about her, and tell them, as
they may have heard, that they must
do without her. Their papa will de-

He'll tell them all about the worms
they have in Guatemala,
And other appetizing germs.
A bird may care to tell you,
As he has cleared up everything,
Including its betrotals,
Intrepid youth will take the wing
And look up Col. Goebels Cut and
critique it as duty. It seems to
them, but it might be better, truly,
They'll thoroughly inspect the locks,
debate about the filling, and sometimes
sit upon a roof and watch the
drillers drilling. All tourists do it just
this way, and sit around and hallow,
and so, in season will the jay, the red-
bird and the swallow.

Exchanging summer stories.

With many quacks and chuckings,
They'll say they've not been idle quite.

LABOR AND THE RULE OF RIGHT.

The working people of Ameri-
ca—if they must be distinguished
from the minority that con-
stitute the rest of it—are, of
course, the backbone of the na-
tion. No law that safeguards
their life, that improves the phys-
ical and moral conditions under
which they live, that makes their
hours of labor rational and let
them rest in their own interest
and that protects them where they
cannot protect themselves can
properly be regarded as class
legislation or as anything but as
a measure taken in the interest
of the whole people, whose part-
nership in right action we are
trying to establish and make real
and practical. It is in this spirit
that we shall act if we are gen-
uine spokesmen of the whole
country.—From Woodrow Wil-
son's Speech Accepting the Dem-
ocratic Nomination.

don of the real issues upon which
the campaign will be fought this fall. I
think that it is bound to strengthen
Governor Wilson among the thinking
people of the country.

Will Ring Through the Country.
Governor George W. Donaghy, Ar-
kansas.—"It was a great speech. It
will ring through the country. It is
just what he should have said. The
people have never felt more con-
fident of success since the first nomination
of Grover Cleveland."

Iowa For Wilson.
Judge Martin J. Wade, Iowa.—"For
the first time since the state was ad-
mitted to the Union Iowa will this year
give its electoral vote to the Democ-
ratic nominee for president."

Jeffersonian to the Core.
John A. Dix, Governor of New
York.—"Governor Wilson's speech of
acceptance is marked with broad vi-
sion and clear thought, expressed in
language every American can un-
derstand. As a business man and man-
ufacturer, I am especially pleased with
his positive and statesmanlike position
on the paramount issue of tariff re-
form and his demand for an immedi-
ate downward revision. In sincerity,
precision of statement and comprehen-
sive grasp of great principles and their ap-
plication to the fundamental needs of
the country the speech is Jeffersonian
to the core. It contains no appeal to
passion and excites no prejudice.
Governor Wilson has presented to us
the dam of the tariff, the real strug-
gle of the truth that the tariff concep-
tion of the tariff is the real struggle
between the concentrated powers of pri-
vate and the aspiration of the Ameri-
can people to realize in their govern-
ment and their economic industrial
and social relations the full measure
of the principles of freedom and jus-
tice. To all the issues and
was a national need Governor Wilson
applies the rule of right and common
advantage. The reforms he advocates
are far-reaching, but they are ac-
cording and practical and the national
will awaken and lead to a triumph that
science and the people the control
of their government and inaugurate a
new and glorious epoch in the life and
development of the republic."

cans.

or Wilson's speech of acceptance is
the utterance of a twentieth century
statesman. With keen perception he
recognizes the evils from which the
people are suffering and the dangers
which threaten our welfare. With
broad vision he points the way by
which those evils may be removed and
the dangers averted. He proves his

Forced to Sacrifice Beard

The Wisconsin farmer whose Judge Holbhand condemned, in lieu of a fine which he could not pay, to have his flowing beard cut off, may find consolation in the fact that a similar order deprived a man in New York of long and carefully cultivated whiskers a few days ago. The man is considered one of the foremost in the country in a manufacturing concern where his duties bring him in contact with rapid moving machinery. The proprietor's motive, in a visit to the factory, was to see the machine which the

bearded man was operating and to say: "Don't the hair ever get up with the silk?" The operator smiled, but the father, in danger, gave the man the option of shaving or disfigurement. He chose the former.

American History in Sculpture.

The Art Committee of the City Federation has secured the cooperation of Prof. Victor S. Halm of the St. Louis School of Fine Arts in arranging for an illustrated lecture on American Sculpture to be given in the Congregational church Friday, Sept. 8, at 8 o'clock.

The slides for this lecture are loaned by the Art Institute of Chicago, and the lecturer has an international reputation as a sculptor. The lecture will cover the period from the late seventies until the present time, the group of men who grew up with and around Saint Gaudens, and who like him, were inspired by the Renaissance of France instead of the false classicism of Rome.

The lecture promises to be both instructive and entertaining.

WISCONSIN HAS BEST ORCHARD LAND.

Wisconsin offers fruit growers some of the best land to be found in the country. Wisconsin bankers were told by Frederic Grandfield, secretary of the State Horticultural society, Thursday afternoon.

We have thousands of men in Wisconsin otherwise sane who firmly believe that the only place where apples can be grown with profit is some remote point west of the Rockies, some fabled land of sun shine, just at the foot of the rainbow. "He said."

Thousands of thousands of not millions of Wisconsin farmers have been invested in the far west in orchards. These rainbow chasers did not know or take the trouble to learn that greater opportunities are offered right at home. They did not know that the Wisconsin orchardist can buy an acre of land, plant it to fruit trees and bring it to profitable bearing for less than it costs to ship a load of apples in Wisconsin is less than the freight charges on a bushel from Washington or Oregon to Chicago.

Mr. Grandfield explained that the capital required to engage in fruit growing in Wisconsin is small, while returns are big if up to date methods are employed. What he said of apples is true of other fruits he asserted.
